LANTIC

• • • ENTERTAINMENT SYSTEMS

So simple to use, and yet so versatile - Suite 2011 continues the Lantic tradition of creating integrated, multi-zone entertainment systems that hide their unrivalled sophistication behind stylish, hand-held controllers that take just seconds to master. Suite 2011 brings a new, improved user interface, the latest in server and multimedia processing technology, Blu-ray conversion and playback, unlimited media storage and much more.

A world of entertainment, information and controls including music, movies, satellite TV, Internet, environmental systems and ship's data is available at the touch of a button. New intuitive, on-screen menus smoothly guide users to the content or information they seek. Choose between Lantic's own iconic remote control and devices such as the iPad, iPhone or any smartphone for complete access to all functions.
