

NEW VSAT SERVICE FROM MNS

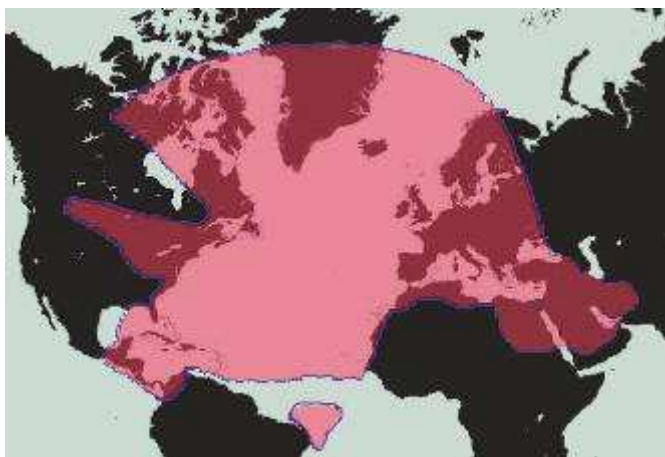

In cooperation with our main office in Norway, MNS are launching a new VSAT service specially tailored for the superyacht market.

The GISat service is available with Seatek Ku-band VSAT antennas from 60 cm dish size and up.

What is new?

- Higher internet speeds
- Better coverage
- Lower prices
- More flexible subscription plans

Coverage with 60 cm Seatek antenna:

How is this possible?

- New modem technology based on the DVB-S2 standard
- Coverage on new and more powerful satellites

Service options:

Service	Speed, MIR		VOIP lines included
	Download	Upload	
Basic	1024 kbps	256 kbps	1
Gold	2048 kbps	512 kbps	2
Premium	4096 kbps	640 kbps	2

- All with a sharing ratio of 1:15
- Other service options and additional VOIP lines available upon request

New:

Onboard GSM base station for onboard GSM coverage (plug and play solution for GSM via VSAT). Works with most providers!

What if you already have VSAT?

MNS are now offering a free buy and try service. Try the GISat VSAT service for one month without charge.

So what is VSAT anyway?

VSAT works as you ADSL internet connection at home, - only via satellite. You can use you connection as much as you want without any extra cost, and there's no roaming cost when visiting other countries. Cheap telephone rates with landline numbers (Numbers from 40 different countries are available)

Please contact us for more info!

MNS:

SUPERYACHT VSAT SINCE 2000

THE GIS GROUP:

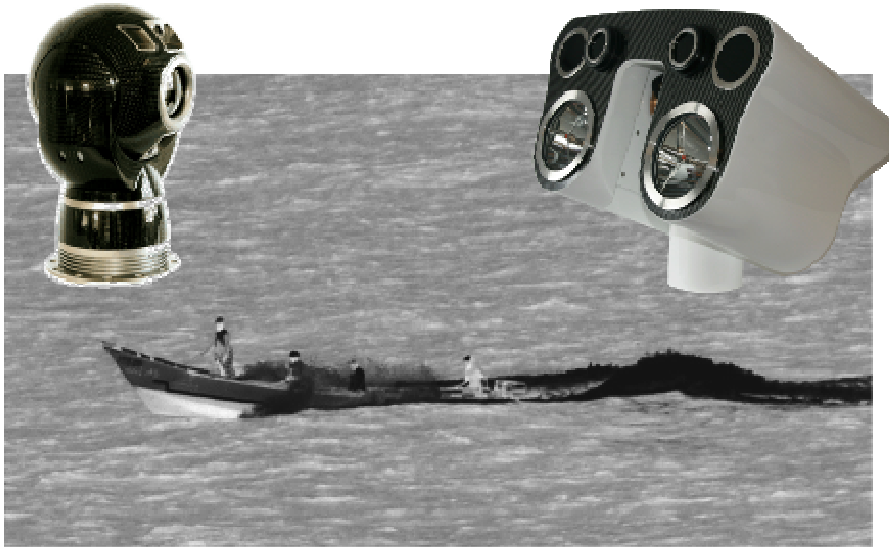

MARINE VSAT SINCE 1993
